- **Background**

KIBB Planning Consulting (PTY) Ltd is an established project controls company with the purpose of improving our clients credibility, needs and quality for all business levels by offering project management and project controls consultation. Established in 2013 trading as BranLloyd Consulting (PTY) Ltd, we have operated within a broad range of business sectors including but not limited to petrochemical, oil & gas, civils and the power sector. KIBB Planning Consulting (PTY) Ltd started as a freelance planning company, currently expanding into project controls and project services due to client demand. We are able to provide high quality analysis, consultation and advice, ensuring that the interests and objectives of our clients are protected.

Project Experience of KIBB planning Consulting (PTY) Ltd:

Project Experience includes civil, electrical, and mechanical construction, oil & gas, generation and transmission of electric power. We have consulted at TM2 (Heidelberg), Medupi Power Station, Kusile Power Station and Sasol - Secunda alongside major stakeholders and with great success.

• Our Goals

Mission

- To promote, stimulate and encourage high standards of project controls management in the work place.
- Our aim is to provide enhanced project controls together with a pragmatic approach in developing solutions, which enables employers and organisations to achieve project goals on time, within budget whilst satisfying customer needs.

Vision

- To increase effective project management, project integration and project drive implementation of the organisations strategy.
- To ensure that project goals are our first priority.
